

PACKING CRATES

Mr Shelf Crates are milled from Renewable Forests in the Mpumalanga area. The timber is sawn and graded at reputable Saw Mills (FSC Graded) and is kiln dried (heat treated) as per ISPM 15 Regulation which is required for the manufacture of boxes, crates etc. for export purposes and is recognised as one of the treatments used world wide.

To prevent any unnecessary damage during shipment, all storage crates are designed and manufactured to suit your application.
